DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 10/6/06 have been fully considered but they are not persuasive. The examiner agrees with the applicant that Primucci element 34 is a gasket; however, it has the sufficient structures to meet the retainer assembly as claimed and being utilized in the same environment. The claims fail to set forth the structure to distinguish therefrom.

Claim Objections

2. Claim 12 is objected to because of the following informalities: the claim depends upon itself. Appropriate correction is required.

3. Claim 20 is objected to because of the following informalities: lines 2-4 of the claim are out of order which causes a few limitations lack antecedent basis in the claim. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limitation "said rib" in line 2 lacks antecedent basis in the claim, which make it unclear as to what structure is being referred to by it.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 7-9, 13, 14, 16 and 21-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Primucci.

In regard to claim 7, Primucci discloses a shower surround comprising a first surround section (the middle section) having an inner band section; a second surround section (the top section) comprising an outer band section; and a retainer assembly (34) mounted to the outer band section (see Fig. 5), the retainer assembly comprising a first frame arm (40) opposed to a second frame arm (42) and a stop (36) which extends from one the first frame arm and the second frame arm, the inner band section receivable against the stop and between the first frame arm and the second frame arm (see Fig. 5).

In regard to claim 8, the outer band comprises a stepped band section (where 10 is pointing in Fig. 5) displaced from a surround surface.

In regard to claim 9, the inner band comprises a rib extends therefrom (shelf 14 is considered as the rib as claimed).

In regard to claim 13, 14 and 16, the method as claimed would be inherent during normal assembly of the Primucci shower surround.

In regard to claims 21-24, since the retainer assembly is a gasket, it is inherent that a multiple of seals integrally mounted within the retainer assembly to receive the inner band. The integral seal mounted to said stop to receive an end segment of said first inner band and is generally L-shaped. The integral seal would inherently include a first surface adjacent said stop and a second surface adjacent at least one of said first frame arm and said second frame arm.

Allowable Subject Matter

6. Claims 10-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 25 appears to be similar to that of claim 10.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3751

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
